Text4baby Outreach Partner Data Use Agreement

Attached, please find the Data Use Agreement (DUA) for Text4baby Outreach Partners. Please follow these instructions when completing the DUA:

1. The person who completes this form (SIGNS the form) must be the person who will have access to the data. If your organization requires that a CEO or ED sign, please have BOTH individuals sign the document by adding an additional section.
2. The box on the left on the 3rd page is for the ZERO TO THREE’s (ZTT) signature. Please not do write in that section.

Please submit this form to Jessica Bushar at jbushar@zerotothree.org

Next Steps

Once your form has been received, ZTT will work with Voxiva to obtain log-in credentials for you. This may take a few weeks. Please be patient.

Once log-in credentials have been created for you, ZTT will send you an email with further instructions and resources.
Text4baby Outreach Partner Data Use Agreement

This Data Use Agreement (DUA) between ZERO TO THREE (“ZTT”) and (“Data Partner”) is agreed as of this day of _____________________________. This DUA applies only to the individual who has signed below on behalf of the Data Partner. If Data Partner designee changes, a new DUA must be completed and ZTT must be notified of the change.

I. BACKGROUND

1.1 About Text4baby data use. ZTT works with Voxiva, Inc. to maintain information about users enrolled in the Text4baby program. ZTT may share specific data fields with Outreach Partners to assist in developing outreach and marketing strategies and evaluating success. This data is not intended to be used to conduct formal evaluations.

1.2 Outreach Partners. Outreach Partners are organizations that have already completed the Text4baby Outreach Partner registration online. This is a separate agreement. Both the DUA and completed Outreach Partner registration are required to access the data.

II. PARTNER ROLES & RESPONSIBILITIES

2.1 ZTT Responsibilities. In support of the Data Partner, ZTT agrees to the following:

a) Provide Data Partner with one set of log-in credentials for access to database containing real-time enrollment data. A data dictionary will be provided for the user.
